

KonciniCucine

ABOUT

Koncini Cucine is a kitchen specialist company that merges the refined elegance of Italian Design and the high precision and technology of Nordic European Engineering.

Our High-End design and manufacturing ensures absolute satisfaction, built to your exact needs. From planning to final delivery and assembly, we guarantee to bring you the ultimate kitchen experience.

DESIGN

Our designers are up to date with all the latest kitchen design trends and are experts covering the full spectrum from small to big kitchens and if you prefer a more classical or traditional style we have you covered there as well!

Our aim is to deliver your new kitchen as an investment, a long- lasting high quality area for your home, with a focus on energy efficiency, health and safety, resource responsibility, space management, lifecycle costing, sound and quality control and security and automation.

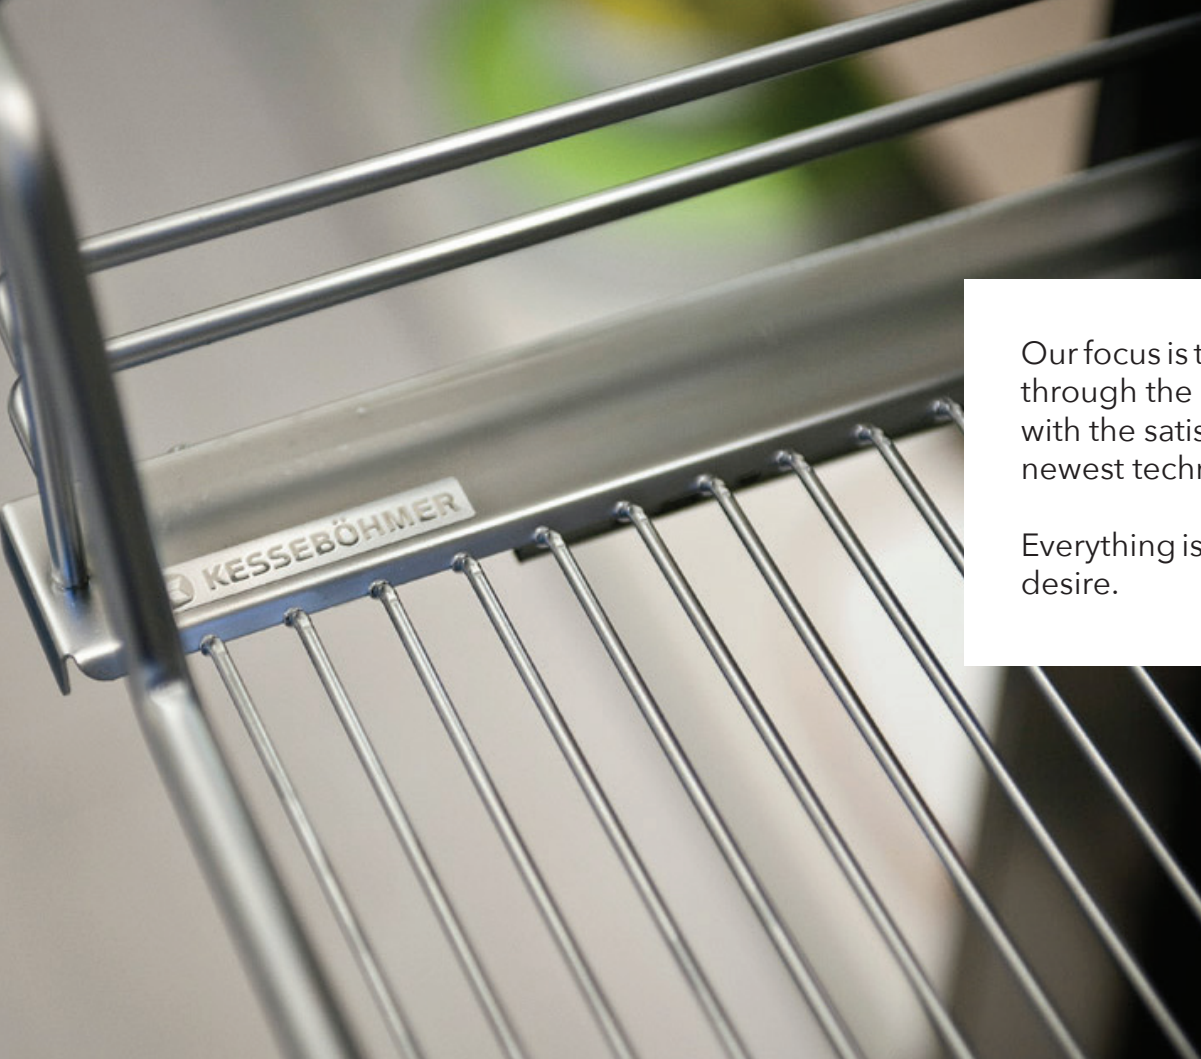

DETAILS

Our focus is to bring to your home a new emotion through the beauty of surfaces and layout along with the satisfaction of the highest precision and newest technology of interior compartments.

Everything is custom made to satisfy your specific desire.
